

## CHANGING CONTEXT..... NEW WAYS OF WORKING REVIEWS : 2020 & BEYOND

### Covid-19 & SILP 10th Birthday Conference

Our preparations for delivering all the topical content to you as promised for our SILP 10th Birthday Conference continue. We are carefully monitoring public health advice & guidelines, & especially the highly dynamic nature of the situation. Please await a firm announcement in April regarding any plan to postpone the event due to Covid-19.

#### WHY BUY A TICKET NOW?

All ticket purchasers who opt to join our online network will begin to benefit from streamed & live content designed by myself and the speakers from April onwards. So, you can begin to delve into the content with my support immediately, no matter when the event itself takes place. You can also join the discussion which will shape the direction of the content we will cover at the event itself. Post event I will support the online accountability group personally with implementation of the key takeaways from each session. This will include live facilitated discussion & a 30 day implementation challenge.

On the basis of all of the above, bookings continue to be taken for the SILP 10th Birthday Conference, which will go ahead at a time that is right for our participants & our team. We are grateful to those who are continuing to support this event, even in these times of uncertainty.

#### ADDED VALUE

As a thank you we have boosted the value of the offering by adding in topic related content, accountability & support through the online group, which of course includes a first class networking opportunity. I believe this opportunity will be all the more needed during social distancing.

I am looking forward to working with you, beginning very soon I hope.
