## A PERSONAL INVITATION FROM DONNA

I've been involved in case reviews using the SILP methodology for over 10 years. Over 150 cases later, & with a 7 year stretch of running our university accredited training course I have mentored and developed a specialist team of SILP Associates.

In that time I've discovered the exact ingredients that differentiate wildly successful reviews that convert to real, implementable learning from those that feel like a resource intensive talking shop.

If you're committed to making 2020 the year you finally get to invest the time to grow your practice, I can't wait to slash the learning curve & help you get there faster.

See you there
